TIME	ACTOR	AUDIT EVENT
7:48 PM	Receptionist	Appointment created with an original service price of PKR 2,000. A finalized invoice was created at the same time with total PKR 0 and paid amount PKR 0; the appointment was shown as “Paid”.

Audit Finding

Both appointments originally carried charges of PKR 2,000 each, for a combined value of PKR 4,000. Their finalized invoices recorded PKR 0 as the amount paid. Because a zero-value finalized invoice satisfies the current paid-status calculation, both appointments appear as “Paid” even though no payment was recorded.

The verified appointment revenue received for 3 November 2026 remains **PKR 13,000**. These two zero-value invoices do not contribute to that total.
